CILJEVI KONFERENCIJE

Udruženje za tehnologiju vode i sanitarno inženjerstvo 2020. godine slavi značajan jubilej, 60. godina svog postojanja i organizuje na Zlatiboru 50-tu Konferenciju iz oblasti komunalnih i industrijskih otpadnih voda, komunalnog čvrstog otpada i opasnog otpada.

Ovaj zlatni jubilej naše Konferencije želimo da obeležimo svečano i radno i sa što više dobrih radova i prisustvom svih naših kolega koji su godinama dolazili i podržavali rad ovog značajnog skupa.

Cilj Konferencije je razmena znanja i iskustva u sve tri tematske oblasti kao i primena regulative i standarda koji vode poboljšanju stanja u životnoj sredini.

CONFERENCE TARGETS

The Association for Water Technology and Sanitary Engineering celebrates an important jubilee in 2020, the 60 year anniversary and it organizes the 50th Conference addressing the challenges in the domains of municipal and industrial waste waters, municipal solid wastes and hazardous wastes.

We would like to celebrate this golden anniversary in an official and solemn manner, with as many high-quality works as possible and in the presence of all our colleagues who have been attending the Conference and supported its work for many years.

The Conference aims to support the exchange of knowledge and experiences within the domain of conference themes and to stimulate the implementation of regulations and standards that ameliorate environmental protection.

TEMATSKE OBLASTI

A. OTPADNE VODE

Integrirano upravljanje otpadnim vodama

- Nacionalna regulativa i regulativa EU
- Monitoring i informacijski sistemi u zaštiti voda
- Akreditacija laboratorija

Prečišćavanje otpadnih voda

- Industrijske otpadne vode
- Komunalne otpadne vode
- Uklanjanje azota i fosfora
- Organski mikropolutanti u otpadnim vodama
- Obrada mulja
- Nove tehnologije

B. KOMUNALNI ČVRSTI OTPAD

Integrirano upravljanje otpadom

- Nacionalna regulativa i regulativa EU
- Prevencija, sakupljanje, transport, skladištenje i tretman
- Metode odlaganja i ponovnog korišćenja otpada – reciklaža, reiskorišćenje materijalnih i energetskih vrednosti
- Savremene tehnike tretmana čvrstog otpada
- Deponije, izgradnja, korišćenje i monitoring

Upravljanje posebnim tokovima otpada

- Upravljanje otpadnim uljima
- Upravljanje otpadnim gumama
- Upravljanje otpadom od električnih i elektronskih proizvoda
- Upravljanje ambalažom i ambalažnim otpadom

C. OPASAN OTPAD

- Nacionalna regulativa i regulativa EU
- Industrijski opasan otpad
- Medicinski i farmaceutski otpad
- Otpad životinjskog porekla
- Kućni opasan otpad
- Otpad sa perzistentnim zagađujućim materijama (POPs)
- Metode odlaganja i ponovnog iskorišćavanja opasnog otpada
- Označavanje, pakovanje i transport hemikalija i opasnog otpada

Otpadni tokovi i uticaj na zdravlje ljudi

D. REGIONALNA MREŽA ZA JAČANJE KAPACITETA - RCDN

- Učenje i razmena znanja sa kolegama – uspešni infrastrukturni projekti u oblasti prikupljanja i prečišćavanja otpadnih voda

CONFERENCE THEMES

A. WASTE WATERS

Integrated waste waters management

- National and European legislation
- Monitoring and Information systems in water protection
- Laboratory accreditation

Waste waters purification

- Industrial waste waters treatment
- Municipal waste waters treatment
- Nitrogen and phosphor removal
- Organic micro pollutants removal in waste waters
- Sludge treatment
- New technologies

B. MUNICIPAL SOLID WASTES

Integrated waste management

- National and EU legislation
- Prevention, collection, transportation, storage and treatment
- Methods of disposal and reusing the waste - recycling, reuse of materials and energy values
- Latest solid waste treatment methods
- Sanitary landfills, construction, operation and monitoring

Specific waste management

- Waste oil management
- Waste tires management
- The management of waste from electrical and electronic products
- The management of packaging and packaging waste

C. HAZARDOUS WASTES

- National and EU legislation
- Industrial hazardous waste
- Medical and pharmaceutical waste
- Animal waste
- Domestic hazardous waste
- Persistent waste (POPs)
- Methods of disposal and reuse of hazardous waste
- Labelling, packaging and transport of chemicals and hazardous waste

The waste streams and the impact on human health

D. REGIONAL CAPACITY DEVELOPMENT NETWORK - RCDN

- Learning and exchanging the knowledge with colleagues - successful infrastructural projects in the field of waste water collection and purification
